I got to know about the Collcom from Gaurav Kumar who is the Director of Collcom. and started my internship from 13th April, 2021. I did cyber-crime training quiz and it was amazing experience. I learnt alot from the quiz as it has small videos clips and small paragraphs to read. In these small clips and paragraphs has big information. We need to secure our social media accounts with two factor authentication as people are hacking accounts and need to keep strong passwords with Numeric & Special characters and always try to not be a fraudulent victim. I scored 185 out of 200.
Thanks.
I think people should aware of these scams and Collcom is a good platform for people to know these scams.
The staff and Co-interns are very supportive and always ready to help. I attended many meetings and session organized by Collcom.

This was my first internship and I'm really thankful to CollCom for giving me the opportunity to become a part of their cyber awareness programme. Their cybercrime awareness quiz is great and worth attempting. Initially, I didn't know much about cybercrimes, but after doing the internship, I got to know so much about it; be it cyberstalking, identity theft or online child grooming. If anyone who wants to do something for the society and be a change maker, then CollCom is the right place for you.
Thank you CollCom
